

# ILLIA VINIVITIN

Senior Frontend Engineer | React.js | React Native | TypeScript  
Buenos Aires, Argentina | vinivitin.ilya@gmail.com | vinivitin.com | LinkedIn

## PROFILE

Senior Frontend Engineer with 8+ years of commercial experience across web and mobile development. Strong background in React.js, React Native, TypeScript/JavaScript, Redux, MobX, SASS, responsive UI, cross-browser compatibility, and production delivery. Trusted to make architecture decisions for maintained projects, define code style and frontend implementation approaches, mentor engineers, review code, and collaborate with product, backend, QA, and design teams.

## CORE SKILLS

**Frontend:** React.js, TypeScript, JavaScript, Redux, MobX, SASS, HTML, CSS, responsive UI  
**Mobile:** React Native, SwiftUI, mobile UI, cross-platform delivery  
**Engineering:** Frontend architecture, code style, technical decision-making, code review, mentoring, refactoring  
**Delivery:** Production ownership, remote collaboration, API integration, cross-browser compatibility, usability

## COMMERCIAL EXPERIENCE

### Senior Frontend Engineer

Apr 2021 - Present

Alaris Labs

Remote

- Develop and maintain production web and mobile interfaces using React.js, React Native, TypeScript/JavaScript, Redux, and SASS.
- Make architecture decisions for maintained frontend projects, including component structure, state-management patterns, integration approach, and long-term maintainability.
- Define and enforce code style, frontend conventions, implementation approaches, and quality standards across supported projects.
- Mentor developers through code reviews, implementation guidance, debugging support, and frontend best-practice alignment.
- Own frontend implementation for business-critical features from requirements clarification to release, including UI logic, API integration, state management, and edge-case handling.
- Improve reliability and maintainability by refactoring complex UI flows, reducing duplicated logic, and keeping components predictable, reusable, and easier to support.
- Collaborate with backend, QA, design, and product stakeholders to deliver stable, user-friendly features in a remote commercial environment.

### Mobile Engineer

Jul 2020 - May 2021

Self-employed

Remote

- Built and delivered commercial mobile interfaces with React Native, JavaScript, and MobX.
- Implemented reusable mobile UI components, navigation flows, state management, and API-connected screens.
- Worked directly with client requirements, handled implementation decisions independently, and delivered production-oriented mobile features.

### Full Stack Engineer

Jun 2018 - Jul 2020

Self-employed

Kyiv, Ukraine

- Developed commercial web applications using React.js, JavaScript, HTML, CSS, and backend/API integration.
- Implemented frontend features, reusable components, application logic, and data-driven interfaces for client projects.
- Worked across frontend and backend tasks, supporting full delivery cycles from implementation to debugging and release support.

## EDUCATION

Master's Degree in Computer Engineering | Kryvyi Rih National University, Ukraine

2020 - 2021

Bachelor's Degree in Computer Engineering | Kryvyi Rih National University, Ukraine

2016 - 2020

## LANGUAGES

**English:** Professional working proficiency | **Spanish:** Elementary proficiency
